

## Snow Ball Pesto Cheese Ball

### From the Sensenig's Recipe Book

#### Ingredients

1 Pkg. (8oz) cream cheese  
1 stick of butter  
basil pesto (I usually buy it made up)  
sun dried tomatoes

#### Preparation

I use a rounded cereal type bowl and put saran wrap inside so I can wrap it up and also get out easy. You can also just layered it in any type dish and serve from it.

- 1) Take 1 Pkg. (8oz) cream cheese and beat with 1 stick of butter
- 2) put some of cream cheese/butter mix in dish or bowl
- 3) top with basil pesto (I usually buy it made up)
- 4) chop up sun dried tomatoes (in oil, and patted good to remove a lot of oil) on top of pesto
- 5) repeat these layers ending with cream cheese
- 6) wrap saran wrap over top and refrigerate.

When ready to serve, if in bowl pull out and flip on plate, and cover with grated or shredded parmasean cheese.

#### Notes:

Instead of 1 stick butter, you can even use 1/2 of butter which is probably what I did that night, I have used 2 cream cheese and one butter before...you can't mess it up!
